COMPANY PROFILE

ABOUT US

Shivam Precitech Windows LLP is a company formed by Mr. Bhavesh Patel who has a strong domain expertise in design, engineering, manufacturing, and execution of diverse projects ranging from residential units to large commercial projects.

Our manufacturing unit is located at Manjusar Industrial Estate, Savli, Vadodara, spanning on 18,000 square feet plot. We also have a showroom at Old Padra Road, Vadodara, which facilitates our customers to have a first-hand feel of the products.

The team is further strengthened by its value partner **Koemmerling uPVC (Germany)**. Having world leaders in fenestration systems as its value partner, has helped **Shivam Precitech Windows LLP** develop a strong technical know-how base on which they can further leverage their expertise.

CHANNEL PARTNER OF

WHY US?

DESIGN

At **Shivam Precitech Windows LLP**, our engineers will support you in the complete designing of your project using latest Window & CAD software. We will support you to design the window you need.

SITE SURVEY

Our team will visit your site for a complete site survey. Based on which there will be discussions with you in the design possibilities, space utilisations, etc. So that you get the best. All measurements are done using scientific measuring techniques and equipments.

INSTALLATION

Instead of working at the site the old-fashioned way, we fabricate your window in our factory. This avoids a lot of handling, damages at site. Our well trained & dedicated installers will ensure the product is installed correctly to ensure a trouble-free operation always.

PROJECT MANAGEMENT

Shivam Precitech Windows LLP provides you a professional way of handling your project. There will be a proper interaction with you at all stages – Design, Recommendation, Quotation, Manufacturing and Installation, all keeping you updated with the status of your project.

AFTER-SALES SERVICE

Our team ensures that you get a trouble-free after-sales service for the product installed. We provide you a free labour service for 1 year after the product is installed at your site.

MACHINERY

"To build a good product you need good machines."

At Shivam Precitech Windows LLP, you are assured a product of great quality and finish. This is due to the state-of-the-art manufacturing setup comprising of the best of the European Machines. Below set of machines ensure that each process is executed at the highest quality standards.

- › Automatic Double Head Miter Saw
- › Automatic Double Head Welding Machine
- › CNC Corner Cleaning Machine
- › Automatic End Milling Machine
- › Automatic Water Slot Milling Machine
- › Glazing Bead Saw
- › Assembly Table
- › Bosch and Hitachi Power Tools

UPVC BENEFITS

DURABLE PRODUCT

- › Durable & long-lasting (more than 30 years)
- › Withstand weathering, moisture, air pollution
- › No rotting or warping
- › No discolouration under intense heat & UV rays

MAINTENANCE FREE

- › No painting needed
- › Easy to clean
- › Not easy to scratch
- › High-impact strength

STRENGTH, SAFETY, AND SECURITY

- › All main profiles are reinforced with galvanised steel reinforcement
- › Fittings and locking mechanism are securely fastened with self
- › Tapping screw into galvanised steel reinforcement
- › Multiple options for locking hardware

FIRE RESISTANCE

- › Self-extinguished
- › Does not catch fire easily
- › No spread of fire or propagation

EXCELLENT THERMAL INSULATION

- › Low thermal conductivity
- › Multiple chamber construction
- › Double-sealing weather gasket
- › Condensation resistance

EXCELLENT ACOUSTIC INSULATION

- › Welded corner joints
- › Reduced air & water infiltration (high threshold construction)
- › Double-sealing gasket

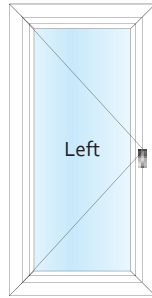

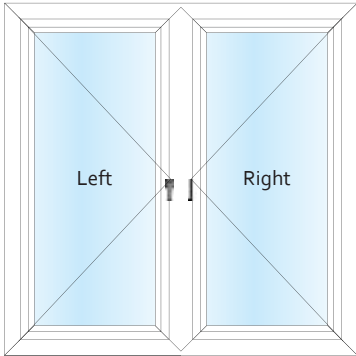

WHY uPVC?

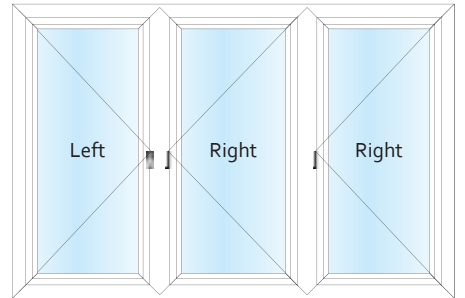

Description	Wood	Aluminium	Kömmerring uPVC
High Impact Resistance	No	No	Yes
Unaffected by Temperature	No	No	Yes
Corrosion Resistance	Yes	No	Yes
Resistance to Exhaust Fumes & Building Industry Chemicals	No	No	Yes
Ageing Resistance	No	No	Yes
Sea Water Resistance	No	No	Yes
Protective Painting or Polishing Required	Yes	Yes	No
High Insulation Qualities	Yes	No	Yes
Good Sound Dampening	No	No	Yes
Wind Proof	No	No	Yes
No condensation or thermal expansion	No	No	No
Adaptable to meet architectural requirement	Yes	No	Yes
Can be formed into aesthetically pleasing shapes	Yes	No	Yes
Can be used in most varied climatic conditions	No	Yes	No
Stable qualities & appearance even after year of external use	No	No	No
Ecologically sound as it is practically 100% recyclable	No	No	Yes
